

# Heavy-Duty Garden Fork with D-Grip Handle

This heavy-duty garden fork is equipped with a comfortable D-grip handle. It features four durable metal tines suitable for digging, lifting, and turning soil and compost.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Garden Fork

This heavy-duty garden fork is engineered for demanding agricultural and landscaping tasks, including digging, lifting, and turning soil or compost. Designed with a robust four-tine metal head, it offers excellent penetration and strength for aerating soil and harvesting root crops. The ergonomic D-grip handle ensures a secure hold and provides leverage to reduce back strain during extended use.

## Technical Specifications

Number of Tines	4
Construction Type	Welded, One-body
Heat Treatment	Yes

## Design & Ergonomics

Handle Style	D-Grip
Handle Material	Wood

## Applications

### Primary Applications

- Soil aeration
- Compost handling
- Manure management
- Mulch spreading
- Root crop harvesting
- Transplanting
