Product Overview

Professional Performance

This heavy-duty hot glue gun is engineered for demanding professional and industrial applications. It features a high-output heating element that ensures rapid warm-up times and consistent temperature maintenance for reliable bonding. Designed with user comfort in mind, it includes an ergonomic soft-grip trigger and advanced controls for precise glue application on materials like wood, plastic, fabric, and metal.

Technical Specifications

Glue Flow Rate

1500 g/h

Flow Rate

Power Consumption

200 W

Voltage & Frequency

AC 230V 50Hz, AC 120V 60Hz

Compatible Glue Stick Diameter

11.2 mm

Features

Ergonomic Features

Soft Grip Trigger • Temp Adjustment • Working Stroke Adjustment • Power Switch
