

Heavy-Duty Hydraulic Bottle Jack

This heavy-duty bottle jack is designed for lifting heavy loads with ease and safety. It features a robust construction, providing reliable performance in demanding environments.

Overview

Heavy-Duty Hydraulic Performance

This heavy-duty hydraulic bottle jack is engineered for reliability and safety in demanding environments. Featuring a leak-proof welded construction and durable steel plate components, it offers superior performance compared to traditional cast iron models. Designed for longevity and environmental protection, this tool ensures smooth, controlled lifting for automotive, construction, and industrial applications.

Performance Metrics

Lifting Capacity

2 Tons

Capacity

Dimensions

Height Specifications

Measurement	Value	Unit
Minimum Height	175	mm
Lift Height	116	mm
Adjustable Height	48	mm

Construction & Quality

Certifications

GS Approved

Build Quality

Leak-proof welded construction, Steel plate build, Oil contamination resistant
