

Heavy-Duty Industrial Sewing Machine

This industrial sewing machine is designed for heavy-duty textile applications. It features a robust construction for durability and stability, high-speed operation for efficient production, and adjustable stitch settings for versatile sewing capabilities.

Overview

Professional Industrial Sewing Solution

This heavy-duty industrial sewing machine is engineered for high-performance textile applications, offering robust construction for maximum stability during production. Designed for versatility, it features adjustable stitch settings and a powerful motor to handle demanding garment and upholstery manufacturing tasks. Its intuitive user interface ensures simplified operation and straightforward maintenance for high-efficiency work environments.

Technical Specifications

Key Performance Features

- High-speed operation for efficient output
- Adjustable stitch settings for varied textile needs
- Powerful motor for heavy-duty materials
- Stable construction for long-term durability

Model Identifier	BS20U43
Certifications	CE

Applications

Suitable Industries

- Garment Manufacturing
- Upholstery Production
- Industrial Textile Processing
