

Heavy-Duty Industrial Sewing Machine for Textiles

This industrial sewing machine is designed for heavy-duty textile applications. It features adjustable settings for stitch length and tension to accommodate various fabric types and thicknesses.

Product Overview

Industrial-Grade Performance

This heavy-duty industrial sewing machine is engineered specifically for demanding textile applications. It features a robust, durable construction paired with an expansive work surface to handle substantial fabric pieces with ease. Designed for high-volume production, it ensures reliable performance and precise speed control for professionals working with heavy materials like sacks and bags.

Key Features

Operational Capabilities

- Adjustable stitch length settings
- Precision tension control
- Foot pedal speed regulation
- High-volume production capacity

Technical Specifications

Build Quality

Robust Design • Large Work Table

Primary Applications

Heavy-duty textiles, Bag manufacturing, Sack production, Industrial fabrication
