

Heavy-Duty Industrial Tank Truck

This is a heavy-duty vehicle with a large white tank mounted on a truck chassis. It is equipped with multiple axles to support heavy loads and ensure stability.

Product Overview

Heavy-Duty Industrial Tank Truck

This heavy-duty industrial tank truck is engineered for demanding sanitation and environmental service applications. Featuring a robust chassis with multiple axles, it is designed to support significant payloads while maintaining operational stability. The vehicle is equipped with a large-capacity tank, making it an ideal solution for specialized fluid transport and municipal sanitation tasks.

Technical Specifications

Safety Features
