

Heavy Duty Industrial Ventilation Fan

This heavy-duty ventilating fan is designed for demanding industrial applications. It features a square frame with multiple mounting points and four blades for efficient air circulation.

Product Overview

Industrial Ventilation Solution

This heavy-duty ventilation fan is engineered for reliability and high performance in demanding industrial and commercial environments. Designed with a focus on durability, the unit features a robust square frame with multiple mounting points to ensure secure and versatile installation. With its efficient four-blade configuration, it provides consistent air circulation while maintaining cost-effective operation and low maintenance requirements.

Design & Construction

Frame Shape	Square
Number of Blades	4
Suitable Applications	Industrial, Commercial, Residential

Operational Efficiency

Key Operational Benefits

- Economical to operate
- Low maintenance requirements
- High-quality construction
- Optimized for reliable function
