

Heavy-Duty Lifting Tow Strap

Heavy-duty tow strap designed for lifting and towing applications. It features durable webbing construction with reinforced stitching for enhanced strength and longevity.

Product Overview

Heavy-Duty Lifting Tow Strap

This heavy-duty tow strap is engineered for demanding lifting and towing applications, providing reliable performance in industrial environments. Constructed with durable webbing and reinforced stitching, it ensures enhanced strength and long-lasting durability. The strap is equipped with robust metal hooks for secure and efficient attachment to various lifting points, making it an ideal solution for agricultural and construction operations.

Technical Specifications

Construction Details

- Durable webbing material
- Reinforced stitching
- Robust metal attachment hooks

Primary Applications

Agricultural, Construction, Lifting, Towing
