

Heavy-Duty Machete Set with Auxiliary Tool

This set includes multiple machetes with durable stainless steel blades and ergonomic handles. An additional specialized tool with a toothed edge is included for gripping or scraping.

Product Overview

Professional Heavy-Duty Machete Set

This heavy-duty machete set is designed for demanding cutting and clearing tasks, featuring a South American, Mexico-style blade profile. Constructed from high-quality 50Mn steel, these tools are machine-polished and fine-varnished to ensure a durable, sharp edge. The set includes an auxiliary tool for specialized scraping or gripping, making it a versatile solution for agricultural and landscaping professionals.
