

Heavy-Duty Material Handling Tongs

These heavy-duty tongs are designed for lifting and moving heavy materials. They feature a robust construction with curved gripping arms and a central lifting mechanism for secure handling.

Product Overview

Heavy-Duty Material Handling Tongs

These heavy-duty metal tongs are engineered for demanding industrial environments, providing a reliable solution for lifting and moving heavy materials. Featuring robust construction with curved gripping arms, they ensure a secure hold during transport. The design incorporates a central lifting mechanism and multiple pivot points to maximize efficiency and safety in material handling operations.

Technical Specifications

Design Features

- Robust metal construction
- Curved gripping arms
- Central lifting mechanism
- Multiple pivot points

Application	Material Handling, Industrial, Heavy-Duty
Finish	Orange
