

Heavy-Duty Metal Blade Shovel with D-Grip Handle

This heavy-duty shovel features a durable metal blade and a reinforced handle with a comfortable D-grip. It is designed for efficient soil penetration and material handling during digging, gardening, and landscaping tasks.

Product Overview

Professional Grade Durability

This heavy-duty metal blade shovel is engineered for high-performance landscaping, gardening, and material handling. Featuring a reinforced design, it provides excellent soil penetration and long-lasting durability for professional work sites. The ergonomic D-grip handle minimizes user fatigue and ensures precise control during demanding manual tasks.

Technical Specifications

Blade Material	Hardened Metal
Handle Design	D-Grip

Key Features
