

Heavy-Duty Motor Grader for Road and Land Leveling

This heavy-duty motor grader is designed for road construction, maintenance, and agricultural land leveling. It features a robust frame, powerful engine, and hydraulic system for precise blade control.

Overview

Heavy-Duty Motor Grader

This heavy-duty motor grader is engineered for professional road construction, infrastructure maintenance, and agricultural land leveling. Built with a robust frame and a powerful engine, it delivers the durability required for demanding earthmoving applications. The advanced hydraulic system ensures precise blade control, while the enclosed operator cabin prioritizes safety and comfort during long shifts.

Technical Specifications

Model Identifier	PY180G
Key Features	Heavy-Duty Construction, Hydraulic Blade Control, Enclosed Cabin, High Traction Tires

Applications

Suitable Applications

- Road Construction
- Road Maintenance
- Agricultural Land Leveling
- Earthmoving
