

Heavy-Duty Off-Road Mobile Unit

This is a heavy-duty off-road vehicle designed for challenging terrains. It features a robust chassis with high ground clearance, large tires, and an enclosed cabin equipped with living or working space.

Overview

Built for Demanding Environments

This heavy-duty off-road mobile unit is engineered for extreme utility and durability in challenging terrains. Featuring a robust chassis with high ground clearance and large-diameter tires, it ensures reliable performance where conventional vehicles fail. The versatile enclosed cabin design provides a secure space suitable for specialized expedition, mobile workspace, or utility applications.

Design & Build

Exterior Equipment

- Front-mounted bull bar
- Roof access ladder
- Integrated storage compartments
- High ground clearance

Chassis Construction

Heavy-duty reinforced truck chassis

Terrain Compatibility

Off-Road, Rugged Terrain, Expedition
