

Heavy-Duty Pipe Clamp with Lever Lock

This heavy-duty pipe clamp is engineered for creating secure and reliable connections. It features a lever-operated locking mechanism that allows easy adjustment and delivers a tight grip.

Product Overview

Heavy-Duty Pipe Clamp with Lever Lock

This heavy-duty pipe clamp is engineered for secure and reliable pipe connections in demanding industrial and plumbing environments. Featuring a robust metal construction, it ensures long-term durability and consistent, leak-proof performance. The integrated lever-operated locking mechanism allows for rapid adjustments and a consistently tight grip, streamlining installation and maintenance tasks.

Technical Specifications

Construction Material	Robust Metal
Locking Mechanism	Lever-operated

Applications

Suitable Applications	Plumbing, Industrial Piping, Secure Connection Systems
-----------------------	--

Performance Features

Key Performance Indicators

1 Certified Leak-Proof Performance	1 High Ease of Adjustment
