

Heavy Duty Plastic Scoop Shovel

This heavy-duty plastic scoop shovel is designed for transferring materials and cleaning up spills. The shovel's durable plastic construction ensures long-lasting performance and is ideal for use in construction, gardening, and industrial settings.

Product Overview

Heavy-Duty Utility Scoop

This heavy-duty plastic scoop shovel is engineered for versatile material handling, from construction debris to gardening tasks and industrial spill cleanup. It features a deep scoop design for maximum efficiency and a reinforced handle to ensure durability under pressure. Its smooth, corrosion-resistant surface makes it exceptionally easy to clean and maintain in demanding environments.

Key Features

Recommended Use Cases

- Construction Sites
- Gardening and Landscaping
- Industrial Material Handling
- Spill Cleanup

Material Characteristics

Corrosion Resistant, Impact Resistant, Heavy-Duty Plastic, Easy-to-Clean Surface

Design & Ergonomics

Design Advantages

Ergonomic Handle • Reinforced Construction • Deep Scoop Capacity
