Product Overview

Built for Demanding Tasks

This heavy-duty rotary hammer is engineered for high-performance drilling and demolition in concrete, masonry, and stone. Designed with professional-grade durability in mind, it incorporates advanced vibration reduction technology to ensure user comfort during extended use. The integrated SDS-MAX chuck system provides secure bit retention and efficient power transmission for superior results on tough job sites.

Technical Specifications

Build Quality

Heavy-Duty • Robust Construction

Primary Applications

- Concrete Drilling
- Masonry Drilling
- Stone Demolition
- Renovation Projects

Chuck System

SDS-MAX

Feature Highlights

Variable Speed Control, Vibration Reduction, High-Performance Motor
