

Heavy-Duty Rotary Hammer Drill

This professional-grade rotary hammer is designed for heavy-duty drilling and demolition tasks. It features a powerful motor for efficient performance in concrete, masonry, and other tough materials.

Product Overview

Professional Performance

This professional-grade rotary hammer drill is engineered for high-performance drilling and demolition tasks in demanding environments. It features a powerful motor designed for efficient operation in concrete, masonry, and other dense materials. The ergonomic design and adjustable side handle provide enhanced control and user comfort during extended industrial or construction applications.

Technical Specifications

Rated Input Power

720 W

Rated Input Power

| | |
|-----------------------|-----------|
| Max Drilling Capacity | 26 mm |
| No-Load Speed | 750 r/min |
| Net Weight | 3.5 Kg |

Application Suitability

| | |
|----------------------|--|
| Primary Applications | Construction, Renovation, Industrial, Masonry, Concrete Drilling |
