

Heavy-Duty Rubber Conveyor Belt

This heavy-duty rubber conveyor belt features a multi-layered design, ensuring optimal strength and durability. Its construction includes a cover rubber layer for surface protection, a carcass for structural integrity, a rubber shim coat for bonding, and a breaker fabric layer for added reinforcement.

Product Overview

Heavy-Duty Rubber Conveyor Belt

This heavy-duty rubber conveyor belt is engineered for demanding industrial applications requiring superior strength and durability. Its multi-layered construction features a robust cover rubber for surface protection and grip, supported by a reinforced carcass and breaker fabric. Designed for reliability, this belt ensures consistent performance in high-stress environments.

Construction Details

Layer Composition

- Cover Rubber Layer
- Carcass
- Rubber Shim Coat
- Breaker Fabric Layer

Key Features

Heavy-Duty, Multi-Layered, Reinforced, Industrial Grade
