## Product Overview

### Heavy-Duty Mobility Solution

This heavy-duty rubber caster is engineered for demanding industrial and commercial environments, making it an ideal choice for hand trucks, waste containers, and equipment carts. Featuring a robust design, it offers reliable load-bearing capacity and smooth, quiet mobility across various surfaces. The versatile configuration options, including different bearing types and braking mechanisms, ensure it can be tailored to meet specific operational requirements.

## Performance Specifications

### Load Capacity

**100 kg**

Minimum Load

**250 kg**

Maximum Load

### Bearing Types

Roller Bearing, Double Ball Bearing

## Configuration & Mounting

### Caster Variations

- Swivel
- Fixed
- Side Brake
- Double Brake

### Material

Rubber wheel with steel frame
