

Heavy-Duty Snatch Block with Swivel Hook

This heavy-duty snatch block is designed for lifting and rigging tasks. It features robust steel construction with a safety latch and swivel hook for secure connections.

Product Overview

Industrial Strength Snatch Block

This heavy-duty snatch block is engineered for demanding lifting and rigging applications. Constructed with robust materials, it features a reliable swivel hook and safety latch for secure connections in varied industrial environments. It is designed to provide versatile and efficient rope management for both wire and synthetic rope configurations.

Key Features

Swivel Hook, Heavy-Duty, Safety Latch, Industrial Grade

Technical Specifications

Dimensions and Load Capacity

Model	Pulley (mm)	WLL (t)	Weight (kg)
SB 75x1	75	0.5	1.1
SB 100x1	100	1	1.8
SB 125x1	125	1.5	3.5
SB 150x1	150	2	5.1
SB 200x1	200	4	7.5
SB 250x1	250	5	10.5
SB 75x2	75	0.5	1.6
SB 100x2	100	1	2.8
SB 125x2	125	1.5	5.5
SB 150x2	150	2	8.5
