

Heavy-Duty Steel Frame Truck Trailer

This heavy-duty trailer has a robust steel frame construction, making it ideal for transporting goods. It is equipped with a ladder for easy access, sturdy side railings, and a rear panel with reflectors for enhanced visibility.

Product Overview

Robust Transport Solution

This heavy-duty steel frame truck trailer is engineered for high-performance transport requirements. Featuring a resilient steel construction, it provides exceptional durability and reliability for heavy load distribution. The integrated safety and accessibility features, including side railings and high-visibility rear reflectors, ensure operational efficiency and cargo security during transit.

Technical Specifications

Frame Material	Heavy-duty steel
Safety Equipment	Rear panel reflectors, Side railings

Operational Details

Stability System

- Multiple wheel configuration
- Load-distributing axle design

Accessibility	Yes
Support Mechanism	Integrated support legs
