

Heavy-Duty Steel Hand Trolley

This heavy-duty hand trolley is designed for moving heavy items with ease. Constructed from robust steel tubing, this trolley features a dual-handle design for improved control and maneuverability.

Overview

Heavy-Duty Steel Hand Trolley

This heavy-duty hand trolley is engineered for efficient material handling and transportation of heavy items. Constructed from robust steel tubing, it features a dual-handle design for superior control and maneuverability. Equipped with large pneumatic wheels and swivel casters, it offers stability and smooth operation across various surfaces, making it an essential tool for demanding warehouse or industrial environments.

Dimensions & Capacity

Load Capacity

250 KG

Max Capacity

Overall Dimensions (LxWxH)

1275 x 614 x 560 mm

Technical Specifications

Material

Steel Tubing

Key Features

- Dual-handle design
- Pneumatic wheels
- Swivel casters
- Adjustable support frame
- Sturdy base plate

Wheel Size

10" x 3.5"
