

# Heavy Duty Swivel Caster with Rubber Wheel

This heavy-duty swivel caster is designed for industrial applications requiring high load capacity and smooth mobility. It features a durable black rubber wheel and a robust steel frame with a zinc finish.

## ADDITIONAL IMAGES

## Product Overview

### Heavy Duty Industrial Caster

This heavy-duty swivel caster is engineered for demanding industrial environments, making it an ideal solution for hand trucks, waste containers, and mobile equipment. Featuring a durable rubber wheel and a robust steel frame, it provides reliable mobility for loads ranging from 100kg to 250kg. With versatile mounting options and multiple braking configurations, this caster ensures stability and maneuverability in warehouses, factories, and workshops.

## Technical Specifications

### Available Sizes

- 100mm
- 125mm
- 150mm
- 200mm
- 250mm

### Load Capacity Range

**100 kg**

Minimum Load

**250 kg**

Maximum Load

### Bearing Options

Roller Bearing, Double Ball Bearing

## Configuration & Mounting

### Braking Configurations

Swivel • Fixed • Side Brake • Double Brake

### Material Composition

Component	Material
Wheel	Rubber
Frame	Steel (Zinc Finish)
