Overview

High-Performance Tipper Truck

This heavy-duty tipper truck is engineered for demanding tasks in construction and mining environments. Built with high-strength Q700 steel, the cargo bed ensures exceptional durability against wear and tear during intensive material transport. The integrated hydraulic lifting system facilitates efficient unloading, making it a reliable solution for bulk material handling.

Technical Specifications

Cargo Bed Dimensions	5400 x 2300 x 1500 mm
Floor Thickness	10 mm
Sideboard Thickness	8 mm
Material Grade	Q700
Hydraulic Lifting System	Domestic 200#
Rear Door Configuration	One rear door
