

Heavy-Duty Towing Tractor

This heavy-duty towing tractor is designed for hauling large loads. It features a robust chassis, powerful engine, and advanced braking system for safe and efficient operation.

Product Overview

Industrial Strength Towing

This heavy-duty towing tractor is engineered for superior reliability and performance in demanding work environments. Designed with a robust chassis and an advanced braking system, it ensures maximum safety and efficiency when hauling large loads. The ergonomic cabin layout provides exceptional driver comfort and control, making it an ideal choice for intensive logistics, construction, and mining operations.

Operational Details

Key Features

- Robust chassis construction
- High-performance engine
- Advanced braking system
- Ergonomic cabin design
- Adjustable seating

Suitable Applications

Logistics, Construction, Mining
