Product Overview

Heavy Duty Grader Blade with Integrated Rippers

This heavy-duty grader blade is engineered for demanding agricultural tasks, including road grading, soil leveling, and path clearing. Featuring a 360-degree adjustable cutting blade with off-centre settings and an integrated multi-tyne ripper system, it offers exceptional versatility for soil preparation. Built for durability and reliability, this implement includes a support leg for convenient storage and replaceable cutting edges to ensure long-term performance.

Design & Versatility

Blade Adjustability	360 degree rotation with 10-point adjustment settings
Ripper System	180 degree rotatable multi-tyne ripper for loosening top soil
Off-centre Settings	Yes
