

Heavy-Duty Tractor Seat with High Back and Armrests

This heavy-duty tractor seat is designed for comfort and durability in demanding environments. It features a high back, integrated armrests and a contoured cushion.

Product Overview

Designed for Operator Comfort

This heavy-duty tractor seat is engineered to provide superior support during long shifts in demanding agricultural and industrial environments. Featuring an ergonomic high-back design and integrated armrests, it minimizes operator fatigue while promoting proper posture. Constructed with weather-resistant materials and effective drainage, this seat is built to withstand rigorous outdoor use while remaining durable over time.

Key Features

Highlight Capabilities
