

Heavy-Duty Tractor Truck

This is a heavy-duty tractor truck designed for transporting heavy loads. It is equipped with a high-roof sleeper configuration and tandem rear axles.

Overview

Heavy-Duty Tractor Truck

This heavy-duty tractor truck is engineered for demanding long-haul transportation and high-payload logistics. Featuring a high-roof sleeper cab, it provides essential comfort for long-distance drivers while maintaining a robust chassis design for reliability. The vehicle is equipped with tandem rear axles and a fifth-wheel coupling, making it a versatile solution for professional transport operations.
