Product Overview

Robust Trailer Support Solution

This heavy-duty trailer support leg is engineered to provide reliable stabilization for semi-trailers when disconnected from a tractor. Constructed from high-strength steel with a durable galvanized finish, it ensures long-term corrosion resistance in demanding environments. The adjustable height mechanism allows for precise leveling on uneven terrain, while the wide footplate enhances load distribution and ground stability.

Technical Specifications

Recommended Applications

- Semi-trailers
- Off-road trailers
- Heavy equipment support

Construction Material

High-strength steel

Surface Finish

Galvanized

Key Features

Corrosion Resistant, Adjustable Height, Heavy-Duty, Wide Footplate
