Product Overview

Professional Cargo Winch

This heavy-duty truck cargo winch is engineered for secure load fastening and reliable tensioning on flatbed trailers and industrial transport vehicles. Constructed from high-grade steel with a durable black finish, it offers superior resistance against corrosion and environmental wear. The integrated gear mechanism and secure pawl system ensure smooth operation and consistent load holding safety.

Technical Specifications

Material	Heavy-duty steel
Finish	Black anti-corrosion coating

Certifications

Certifications & Standards

CE • TÜV Rheinland • Sicherheit

Features

Operational Features

- Integrated gear mechanism for controlled tensioning
- Secure pawl system for reliable load holding
- Easy webbing attachment hub
- Corrosion-resistant steel construction
