

Heavy-Duty Two-Shelf Trolley

This heavy-duty trolley is designed with two shelves for transporting goods. It features a robust metal frame, vertical bar supports, and swivel casters for easy maneuverability in industrial and commercial environments.

Product Overview

Industrial-Grade Transport Solution

This heavy-duty two-shelf trolley is designed to streamline logistics and material handling in commercial environments. Built with a robust metal frame and vertical bar supports, it ensures structural integrity and durability for demanding tasks. The dual-shelf configuration provides ample storage capacity, while the swivel casters allow for effortless maneuvering through tight spaces.

Technical Specifications

Model Identifier	TC4600
Number of Shelves	2
Frame Color	Blue
Shelf Color	White
Construction Materials	Metal, Industrial Grade

Features

Mobility Features

- Swivel casters for high maneuverability
- Robust vertical bar supports
- Heavy-duty load bearing frame

Suitability

Industrial • Commercial
