

Heavy-Duty Water Transfer Pump

This robust water pump is designed for heavy-duty applications. It delivers reliable performance for demanding water transfer tasks.

Overview

Heavy-Duty Performance

This water pump is engineered for demanding heavy-duty applications, offering reliable and efficient fluid transfer. Its robust construction ensures long-term durability, even when operating in harsh environmental conditions. Designed for versatility, it is an ideal solution for irrigation, construction sites, and various industrial water management tasks.

Technical Specifications

Durability Features

Heavy-Duty Construction • Weather Resistant

Model Number	JC-40CBZ60-4.0HB
Suitable Applications	Irrigation, Construction, Industrial Water Transfer
