Product Overview

High-Efficiency Wood Processing

This heavy-duty wood chipper is engineered for reliable performance in landscaping and forestry applications. Powered by a robust 9HP gasoline engine, it features a large funnel for efficient material intake and a high-speed cutting system. Its durable construction and integrated wheel design ensure both commercial-grade longevity and ease of portability across various work sites.

Technical Specifications

Engine Power	9 HP
Engine Displacement	270 CC
Fuel Type	Gasoline
Machine Weight	135 KGS

Cutting System

Funnel Size	35 x 25 CM
Blade Quantity	3
Input Method	Manual
Output System	Fan
