

Heavy Equipment Transport Trolley

This heavy-duty trolley is designed for transporting X-trees and other heavy industrial equipment. It features a robust steel frame, multiple wheel axles for load distribution, and a safety railing system.

Product Overview

Industrial Transport Solution

This heavy-duty transport trolley is specifically engineered for the safe movement of X-trees and other high-mass industrial equipment. Built with a robust steel frame and multiple wheel axles, it ensures optimal load distribution across various terrains. Designed for demanding environments such as oil and gas facilities or manufacturing plants, the unit prioritizes safety through an integrated railing system and high-visibility coating.

Technical Specifications

Primary Applications

- X-tree transportation
- Oil and gas facilities
- Manufacturing plants
- Heavy industrial logistics

Frame Material	Robust Steel
Safety Features	Safety Railing System, High Visibility Paint, Integrated Lifting Points

Operational Capabilities

Crane Compatibility	Yes
