

Heavy Equipment Transport Trolley

This heavy-duty trolley is designed for transporting X-trees and other heavy equipment within industrial environments. It features a robust steel frame, multiple wheels for stability and load distribution, and safety railings for operator protection.

Product Overview

Industrial Heavy-Duty Transport Solution

This heavy-duty transport trolley is engineered for the safe and efficient movement of heavy equipment, such as X-trees, within demanding industrial environments. Constructed with a robust steel frame and an optimized multi-wheel system, it ensures exceptional stability and load distribution. Designed for high visibility and safety, the trolley features bright red paint and integrated connection points to keep critical machinery secure during transit.
