

Heavy Machinery Moving Dolly

This load moving skate is designed for durability, offering a long service life. It facilitates the transport of heavy machinery with ease.

Overview

Heavy-Duty Machinery Transport Solutions

These professional-grade moving dollies are engineered to transport heavy machinery and equipment ranging from 3 to 1000 tons with exceptional stability. Designed for durability, these skates ensure floor protection and reliable operation for over a decade. The modular design allows for mixing and matching individual dollies to accommodate even the most oddly shaped loads.

Performance Specifications

Load Capacity Range

3 tons Minimum Capacity	1000 tons Maximum Capacity
-----------------------------------	--------------------------------------

Expected Service Life

10+ years

Technical Details

Usage Guidelines

- Use steel plates on the floor for optimal surface protection
- Utilize U-bar configurations for specific load requirements
- Mix and match dollies for oddly shaped loads

Durability Rating

High Reliability • Industrial Grade

Available Wheel Materials

Polyurethane, Nylon, Alloy Steel
