

Heavy Machinery Moving Roller Kit

This heavy-duty machine moving equipment is designed for industrial applications. It features a robust construction with multiple rollers for the smooth and efficient movement of heavy loads.

Product Overview

Heavy-Duty Machinery Moving Solutions

This heavy-duty machinery moving roller kit is engineered for the efficient relocation of large industrial equipment. Featuring a robust construction designed for high-load capacity, the system includes a 270-degree swiveling head for precise maneuverability and directional control. The durable yellow finish ensures high visibility and corrosion resistance, making it an ideal choice for manufacturing plants and warehouses.

Technical Specifications

Rotation Angle	270 degrees
Head Configuration	Dual-head capable

Design & Build

Finish	Corrosion-resistant yellow paint
Ideal Applications	Manufacturing Plants, Warehouses, Industrial Facilities
