

Heelys Rolling Footwear

Heelys are footwear that combine sneakers with a wheel in the heel for walking or rolling. They have a durable upper, comfortable lining, and a removable wheel for versatile use.

Product Overview

Versatile Rolling Footwear

These innovative sneakers integrate a single recessed wheel in the heel, offering a seamless transition between walking and rolling. Engineered with a durable synthetic or leather upper and a cushioned inner lining, they provide long-lasting comfort and support. The removable wheel mechanism allows users to adapt the footwear to different environments, making them ideal for active recreational use.

Technical Specifications

Design Components

- Recessed heel wheel
- Removable wheel mechanism
- Padded collar for support
- Padded tongue for comfort
- Dual-purpose grip and rolling sole
