Product Overview

Comprehensive Air Purification

This HEPA air purifier is engineered to significantly improve indoor air quality for homes and offices. Utilizing a robust three-stage filtration system, including a nano-silver pre-filter, True HEPA filter, and activated carbon, it effectively captures dust, pollen, bacteria, and odors. The integrated anion generator further enhances performance by releasing negative ions to freshen the air, while the user-friendly touch panel and sleep mode ensure convenient, quiet operation.

Technical Specifications

Power Supply	100V-240V, 50/60Hz
Power Consumption	30 W
Noise Level	48 dB

Performance Metrics

Key Performance Indicators

30 m² Effective Area	180 m³/h CADR	3 x10⁶ions/cm³ Anion Concentration
---	------------------------------------	--

Filtration System

Filtration Stages

- Nano-silver PP filter (bacteria & large particles)
- True 99.97% HEPA filter (pollen & floating particles)
- Activated carbon filter (odors, methanal, & TVOC)

Features & Controls

Timer Options

2 Hours • 4 Hours • 8 Hours

Key Features

Touch Panel Control, DC Motor, Sleep Mode, Filter Change Indicator, Automatic Safety Shut-off
