Overview

Advanced HEPA Air Purification with Smart Control

This high-efficiency air purifier is designed for modern living and office spaces up to 30 m², offering a 99.9% removal rate of PM2.5 particles. It features a sophisticated 5-stage filtration system combined with an ionizer to eliminate odors, allergens, and microorganisms. With integrated WiFi and smartphone app support, users can monitor real-time air quality and manage settings remotely for a healthier environment.

Filtration System

5-Stage Purification Process

Filter Type	Function
Aluminum Pre-filter	Captures large particles; washable for easy maintenance
Cold Catalyst Filter	Catalyzes formaldehyde, benzene, and TVOCs
Honeycomb Activated Carbon	Rapid adsorption of odors, smoke, and ammonia
Antibacterial/Sterilizing Filter	Eliminates dust particulates, acarids, and microorganisms
High Efficiency HEPA	Eliminates mold, dust, allergens, and bacteria

Smart Features

Seamlessly manage your indoor air quality via the dedicated smartphone app and WiFi connectivity.

Control & Connectivity

- WiFi Smartphone App Control
- Real-time PM2.5 Air Quality Display
- Touch Screen Control Panel
- Filter Replacement Reminder
- Four Adjustable Fan Speeds
- Automatic Speed Adaptation

Technical Specifications

Model	OLS-A3C
Dimensions (H x W x D)	510 x 325 x 172 mm
Rated Power	30 W
Voltage	110-265V / 50Hz
Noise Level	30-65 dB

Safety & Design

Safety Features	Child Lock, Night Mode, Timer, IPX0 Rating
Chassis Material	ABS with Injection Surface Treatment

Compliance

The air purifier meets international safety and quality standards, including CE and EMC compliance.

Standards & Compliance

CE • EMC Compliant • IEC • SGS Verified
