

Hermetically Sealed Refrigerator Compressor

This hermetically sealed compressor is designed for refrigeration applications. It operates at 240V, consumes 60W of power, and is compatible with R134a refrigerant.

Overview

Hermetically Sealed Refrigeration Compressor

The QD28H hermetically sealed compressor is engineered for consistent performance in high-quality cooling appliances. This compact unit operates efficiently at 240V, 50Hz, and is designed for compatibility with R134a refrigerant. Built-in thermal protection ensures reliable operation and safety, making it a dependable choice for refrigeration systems.
