Overview

High-Efficiency Refrigeration Solution

This hermetically sealed compressor is engineered for reliable performance in refrigeration applications. Utilizing R134a refrigerant, it delivers a cooling capacity of 188W and operates efficiently at 1/4HP. The unit is built for durability and meets rigorous international quality standards.

Technical Specifications

Cooling Capacity

188 W

Cooling Capacity

Refrigerant	R134a
Horsepower	1/4 HP
Model Number	QD76HG

Electrical Requirements

Voltage & Frequency	220V / 50Hz
---------------------	-------------

Compliance

Quality Certifications
CCC • CB • CE • ROHS
