Product Overview

Hermetically Sealed Refrigeration Compressor

This hermetically sealed reciprocating compressor is engineered for efficient refrigeration applications. It features a robust design with copper tubing connections and vibration-dampening mounting feet for stable, quiet operation. The unit is optimized for low back pressure (LBP) systems using R600a refrigerant, offering a reliable solution for household or commercial refrigeration equipment.

Design Features

- Hermetically sealed
- Copper tubing connections
- Black enamel finish
- Vibration-dampening feet

Model	BSE60AT
Power Requirements	220-230V, 50Hz
Application	LBP (Low Back Pressure)
Refrigerant Type	R600a
