Overview

Compact Refrigeration Solution

This hermetically sealed compressor is engineered specifically for small-scale refrigeration applications, including water coolers and compact refrigerators. Designed for the North American market, it operates reliably on 110V-120V power systems. The unit features robust construction with vibration-dampening components, ensuring quiet and efficient operation for your cooling equipment.

Performance Metrics

Cooling Capacity

77 W

Cooling Capacity

1

COP

Test Conditions

-23.3°C

Electrical Specifications

Voltage Range	110V-120V
Frequency	60 Hz
Locked Rotor Amperage	7 A
Motor Type	RSIR

Technical Details

Refrigerant R134a	
Cooling Type	Static Cooling
Safety Features	Thermal Overload Protection
Model Number	QDH2811G
