

Hermetically Sealed Refrigerator Compressor

This hermetically sealed refrigerator compressor is designed for R134a refrigerant. It features robust construction for durability and efficient cooling performance.

Overview

Hermetically Sealed Compressor

This hermetically sealed refrigerator compressor is engineered for reliability and efficient performance in low back pressure (LBP) refrigeration systems. Designed to operate with R134a refrigerant, it offers a robust solution for diverse cooling applications requiring high energy efficiency. The unit is optimized for stable operation within standard electrical grid conditions.

Technical Specifications

Compatible Refrigerant

R134a

COP Range

1

Minimum COP

1.2

Maximum COP

Electrical Requirements

- 220-240V
- 50Hz

Model Number

GSC35AM

Power Rating

0.111 HP

Application Type

Low Back Pressure (LBP)
