

Hexagonal Mosaic Tile Flooring with Floral Pattern

These hexagonal mosaic tiles feature an intricate floral pattern. The flooring is composed of white, black, brown, and red speckled tiles set in a concrete matrix.

Product Overview

Hexagonal Mosaic Flooring

This premium hexagonal mosaic tile flooring features an intricate floral motif, combining traditional artistry with a modern geometric layout. The surface is composed of textured, speckled tiles in a palette of black, white, brown, and grey, accented by vibrant red details. Designed for durability and visual impact, these tiles create a sophisticated, high-traffic floor solution suitable for various professional design applications.
