

# High-Capacity Lead-Acid Battery

This high-capacity lead-acid battery is designed for applications requiring a reliable power source. It delivers consistent performance and long service life, suitable for UPS, emergency lighting, and critical power backup.

## Product Overview

### High-Capacity Power Solution

The 6-QA-200 is a high-capacity lead-acid battery engineered for robust and reliable performance in critical power backup applications. Designed with durable construction and an optimized internal architecture, it ensures consistent voltage output and long service life even under demanding conditions. This unit is an ideal choice for uninterruptible power supplies (UPS) and emergency lighting systems.

## Technical Specifications

Model Number	6-QA-200
Battery Chemistry	Lead-Acid

## Safety & Features

Safety Protections	Overcharge Protection, Thermal Runaway Prevention
--------------------	---

## Applications

### Primary Applications

- Uninterruptible Power Supplies (UPS)
- Emergency Lighting Systems
- Critical Power Backup
