

High-Capacity Lithium Battery

This is a high-capacity lithium battery. It is designed to provide long-lasting power for various electronic devices.

Overview

High-Performance Power Solution

This high-capacity lithium battery is engineered to provide long-lasting, reliable power for a wide range of electronic devices. Designed for durability and consistent performance, it serves as an ideal energy solution for professional applications requiring dependable operation. The battery meets rigorous quality standards, ensuring safety and efficiency in various usage scenarios.

Technical Specifications

Battery Type	CR9V
Pack Size	1 count

Compliance

Certifications	ISO 9001:2000
