Product Overview

Professional Pruning Performance

These professional-grade pruning shears are engineered for precision and durability in demanding gardening and landscaping applications. Featuring a high-carbon steel blade, the tool ensures clean, lasting sharpness for efficient branch trimming. The ergonomic design incorporates a spring-loaded mechanism to minimize user fatigue, complemented by a secure locking system for safe storage.

Technical Specifications

Blade Material	High-Carbon Steel
Operation Mechanism	Spring-loaded
Safety Features	Locking Mechanism, Safety Lock

Design and Ergonomics

Handle Color

Yellow

Ergonomics

- Comfortable grip
- Reduced hand fatigue
- Ergonomic handle geometry

Application

Suitable Applications

- Gardening
- Landscaping
- Trimming branches
- Plant maintenance
