Product Overview

High-Performance Tower Mill Liners

These spiral table liners are engineered from high chromium cast iron to provide superior wear resistance in demanding milling environments. Designed to extend operational lifespan by 10% compared to standard domestic alternatives, these components offer a high price-performance ratio. They are suitable for a wide range of vertical mill types, ensuring reliable grinding efficiency and reduced maintenance downtime.

Technical Specifications

Lifespan Improvement

10 %

Extended Lifespan

Material

High Chromium Cast Iron

Compatibility

Compatible Mill Models

- FL Smidth ATOX
- Loesche LM
- GEBR. PFEIFFER
- MPS type
- RM type
- CKP type
- MLS type
- MPF type
- TRM type
- HRM type
- ZGM type
- HP type

Market Reach

Export Destinations

Russia, Germany, Pakistan, Costa Rica, Argentina, Greece, Denmark, Colombia
